

Future in Connection

2025

hama

List of technical terms / abbreviations.

HDR

"HDR" stands for "High Dynamic Range" and is a technology for expressing colours and contrasts more vividly.

How does the technology work **with smartphones?**

- With an HDR image, at least three images are captured simultaneously.
- Large differences in brightness in the picture are reproduced in great detail.

eARC

"eARC" is a function that was implemented in the HDMI™ 2.1 standard. It stands for "Enhanced Audio Return Channel" and enables a significantly higher bandwidth for audio transmission via HDMI™ cable. eARC makes it possible to transmit the original audio signal in full resolution via an HDMI™ cable and reproduce the best sound without compromise.

Power Delivery (PD)

USB Power Delivery, or USB PD for short, is a standard for power transmission for USB-C products.

- Enables faster charging with a wide range of devices

Aramid fibres

“Aramid fibres” are artificial fibres. They consist of individual filaments that are put together to form a thread.

Aramids are characterised by high thermal and chemical resistance, strength and elasticity as well as good flame resistance and dimensional stability.

240 Hz

144 Hz

60 Hz

Hz (refresh rate)

The refresh rate indicates how many images a monitor/TV displays per second. The unit for this is called Hertz (Hz).

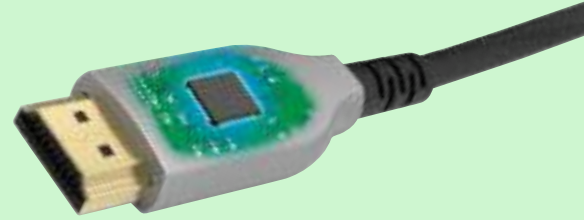

A high refresh rate ensures smooth images.

AOC

"AOC" means "Active Optical Cable" - this can significantly improve the quality and consistency of audio and video transmission.

It is especially well suited to transmissions over longer distances since the data rate does not drop rapidly after just a few metres, as is normally the case with copper cables. Cable lengths of 100 metres and more are not a problem, even with high resolutions.

They can also be used in environments with a lot of electromagnetic interference.

MST

MST is a technology that allows multiple external monitors (with different graphic content) to be connected via a single USB-C port.

HEC

HEC is an HDMI Ethernet channel, i.e. a network connection in an HDMI™ cable

They enable the transmission of Internet data at high speeds with better bandwidth. If you use WLAN, you can use HDMI™ Ethernet to get a better, faster and more stable connection.

Future in Connection – The cable concept of the future.

- With our newly developed Future in Connection range, we are focusing not only on quality and technology, but also on recyclable packaging. For the sake of our environment, we use FSC-certified paper for all our packaging.
- It is structured on the basis of our existing, tried-and-tested range of high-quality products with their own design. New products from on-trend topics, such as 8K or USB-C, have also been integrated to match.
- Our range covers products for screens, sound, external communication (aerial / SAT, network), tooling, power & cleaning, as well as power supply units and adapters / hubs. On-trend topics such as 8K or USB-C are no longer being allocated strictly to one area of use, but rather are part of the audio/video/aerial range, as well as in multimedia, since these worlds are becoming increasingly networked. The result is a portfolio of almost 600 articles that place the emphasis on the application that is also reflected in its own colour guidance system.

The range structure.

- The range has been divided up into three different product lines. Entry, Essential line and Prime line: these various product lines have different quality features and guarantee promises, allowing a clear distinction to be made between them.
- The result: The perfect blend of top-sellers and professional articles on the sales wall. Consumers quickly and easily get the ideal solution for almost every problem relating to cables and adapters.
- In the future, there will be no more distinction according to the star system. Instead, distinctions should be made based on "real" criteria. With the old star system, it was not immediately obvious to consumers why a 3-star product costs more than a 1-star product. "Real" criteria make a higher price immediately understandable for consumers.

Prime Line

30-year warranty

Essential Line

10-year warranty

Entry

2-year warranty

Example of HDMI.

Prime Line

- High-tech cable sheath reinforced with aramid fibres
- Robust metal plug
- Maximum transmission quality
- Optimised shielding

Warranty
30
years

Ultra-high-speed HDMI™ cable, plug - plug, 8K, metal

Ultra-HD cinema quality 7680x4320 (8K) pixels, high-tech cable sheath reinforced with aramid fibres, robust metal connector with optimum shielding, different packaging design

2.0 m | **205239** | € 39.99

Essential Line

- Extra-thin cable
- Short plug design

Warranty
10
years

Ultra-high-speed HDMI™ cable, plug - plug, 8K

Ultra-HD cinema quality 7680x4320 (8K) pixels, box packaging

2.0 m | **205242** | € 24.99

"Ultra-Slim" high-speed HDMI™ cable, 4K, plug - plug, Ethernet

Ultra-HD cinema quality 4096x2160 (4K) pixels, ultra-slim design, ultra-thin and super-light, box packaging

2.0 m | **205075** | € 23.99

High-speed HDMI™ cable, 4K, plug - plug, Ethernet

Ultra-HD cinema quality 4096x2160 (4K) pixels, box packaging

1.5 m | **205005** | € 12.99

Entry

- Price entry range
- Reliable cables

Warranty
2
years

High-speed HDMI™ cable, plug - plug

High-speed HDMI cable, maximum resolution: 1080p, strap

1.5 m | **205000** | € 7.99

More recycling – more sustainability.

After our packaging, our products are themselves becoming more sustainable. We are the first supplier to replace the normal PVC present in cables with 100% recycled PVC. This corresponds in total to around 50% of the total weight of the cable.

Our HDMI™ cables are just the start – gradually, we will be expanding the range with other cables featuring recycled PVC.

We also highlight this innovation on the packaging, so that customers can be made directly aware of this unique selling point.

Computers

Adapter & Hubs

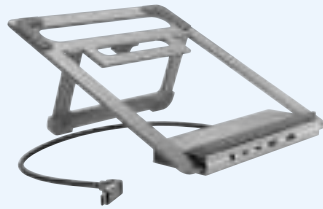

Docking stations - smart all-rounders.

Notebooks and laptops bring a lot of flexibility to working life. Whether in the office, on the move or working from home - working from anywhere is now possible. However, this also means that all connected devices, such as the mouse, monitor or network connection, have to be set up again at each location. Docking stations provide a remedy:

- **Plug in and go**
All devices are connected to the notebook/laptop with just one cable
- **The perfect setup**
For a healthy sitting position and everything exactly where you need it
- **Efficient working**
Fast data transfer and high resolutions allow you to work without compromise

The right connections for every setup

200139 | USB-C docking station "Connect2Office Stand", notebook holder, 12 ports

200100 | USB-C docking station, "Connect2Office Pro", 10 ports

200133 | USB-C docking station, "Connect2Office Pro", 10 ports

200142 | "Connect2Media" USB Hub, Multi-port, 9 Ports, 2x HDMI™, USB-A, USB-C, LAN

200145 | "Connect2Office Basic" USB-C Docking Station, Detachable Feet, 9 Ports

Docking Station

12 ports

"Connect2Office Stand" USB-C Docking Station, **hama** Notebook Stand, 12 Ports

Shade of colour	Anthracite
Connection	USB-C-plug
USB Standard	USB-3.2 Gen 2
Number of Connections	12

- Super speed Plus data transfer rates of up to 10 Gbps
 - USB-C socket supports USB Power Delivery (USB PD) and rapid data transfer
 - For perfect, high-resolution ultra-HD cinema quality with 4096x2160 (4K) pixels
 - With MST (Multi-Stream Transport), you can connect three additional monitors to a notebook, for example, and use all four screens at the same time with different content
 - Gigabit Ethernet data transfer at up to 1 Gbps
 - For perfect, high-resolution, HiFi stereo sound quality
 - High-quality and sturdy aluminium housing with a sophisticated finish
 - Large socket distance allows problem-free connection even of wide plugs
 - Flexible materials guarantee optimum kink protection and prevent cable breakage
 - High-quality materials and workmanship guarantee excellent transmission quality
 - The USB-C port is positioned in the centre of the docking station, so it works with all notebooks regardless of whether the USB-C socket is on the left or right
 - Angled configuration allows convenient position and comfortable working at the desk or on the move
 - Collapsible notebook stand for space-saving working or transport
 - Rubberised feet for a secure stand without slipping
 - Secure stand for laptops up to 15.6" (39.62 cm)
 - Plug & Play, no manual software / driver installation required
 - Compatible with Thunderbolt 3/4 (lightning symbol)
 - Power supply via USB
- Connections:
- 4 x USB-A: for e.g. external hard drive, USB stick, mouse, keyboard, printer

- Plug & Play, no manual software / driver installation required
- Compatible with Thunderbolt 3/4 (lightning symbol)
- Power supply via USB

Operating system: Windows 11/10/8/7 and Mac OS 10.8 upwards
To use the charging function over USB-C, the device must support USB Power Delivery (USB PD) or Thunderbolt 3/4.

To use the monitor function over HDMI™, the device must support DisplayPort Alternate Mode (DP Alt Mode), Thunderbolt 3/4 or USB4.

Connections:

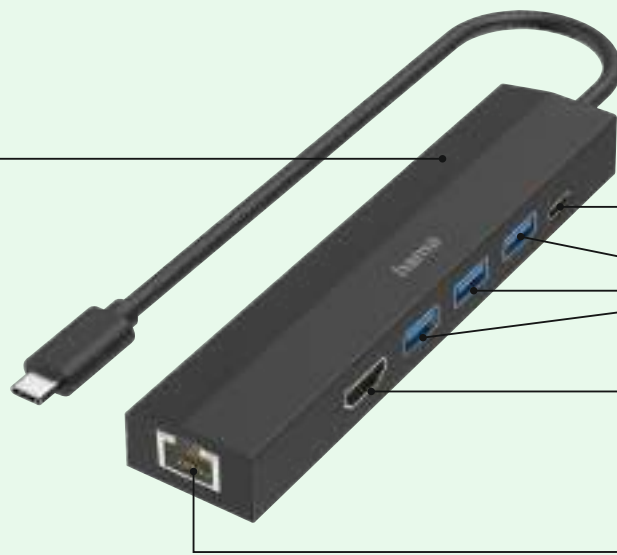

- 3 x USB-A: for e.g. external hard drive, USB stick, mouse, keyboard, printer
- 1 x USB-C power: for e.g. PD charger, PD power supply unit, PD power pack
- 1 x HDMI™: for connection to an e.g. monitor, TV or projector
- 1 x LAN/Ethernet: for e.g. cabled Internet / network connections
- Plastic housing produced in a resource-saving way from 50% PCR recycled material

The "green" multi-port adapter

High-quality technology in a sustainable housing - this is what our recycling miracle with 6 connections stands for. The plastic housing is made of 50 % recycled PCR material, thus protecting the environment right from the production stage. Inside, the adapter impresses with a new circuit board and enables lightning-fast data transfer as well as high-resolution Ultra HD cinema quality.

Recycled housing

Power Delivery

5 Gbit/s USB 3.2

4K HDMI

1 Gbit/s LAN

5 ports

USB-C hub, multi-port, 5 ports, 3x USB-A, USB-C, HDMI™ *hama*

Shade of colour	Black
Connection	USB-C-plug
USB Standard	USB 2.0, USB-3.2 Gen 1

- High-speed data transfer of up to 480 Mbps
- USB-C socket supports USB Power Delivery (USB PD) and therefore allows charging via a USB-C power supply unit
- For perfect, high-resolution ultra-HD cinema quality with 4096x2160 (4K) pixels
- Plug & Play, no manual software / driver installation required
- Compatible with Thunderbolt 3/4 (lightning symbol)
- Power supply via USB

Connections:

- 3 x USB-A: for e.g. external hard drive, USB stick, mouse, keyboard, printer
- 1 x USB-C power: for e.g. PD charger, PD power supply unit, PD power pack
- 1 x HDMI™: for connection to an e.g. monitor, TV or projector

Operating system: Windows 11/10/8/7 and Mac OS 10.8 upwards

To use the charging function over USB-C, the device must support USB Power Delivery (USB PD) or Thunder-

bolt 3/4.
To use the monitor function over HDMI™, the device must support DisplayPort Alternate Mode (DP Alt Mode), Thunderbolt 3/4 or USB4.

Computers

USB

USB.

Why are some USB ports colour-coded?

The colour of the USB plug indicates which USB version it is.

Blue: USB 3.0

White/black: USB 1.0
White/black: USB 2.0

Note, however, that the colour codes are not always uniform, as their use is left to the manufacturers.

The universal interface is now found almost everywhere - whether to connect devices or to supply power. Different speeds are used:

Thunderbolt™ 5/ USB4 Gen4

Thunderbolt™ 3+4/ USB4 Gen3

USB 3.2 Gen 2 x 2

USB 3.2 Gen 2

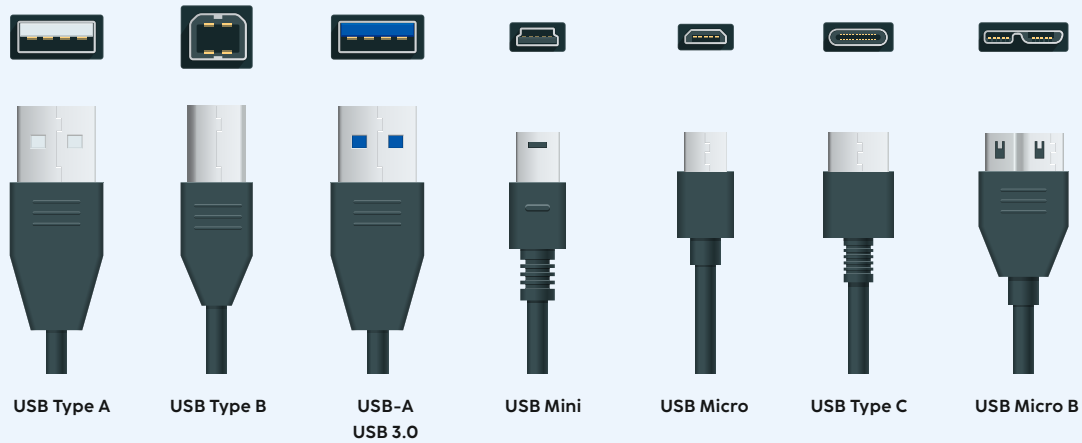

USB 3.2 Gen 1

USB 2.0

Highlight.

200799 | USB-C Cable, E-Marker, USB4 Gen4, 80 Gbit/s, 5 A, 240 W, 1.00 m

- Ultra-speed data transfers at up to 80 Gbit/s bidirectional and up to 120 Gbit/s via “bandwidth boost”
- Intelligent communication thanks to E-markers: supports USB-C Power Delivery (PD) 3.1 Extended Power Range (EPR) standard charging at up to 240 Watts
- For perfect, high-resolution, Ultra-HD cinema-quality 7680 x 4320 (8K) pixels
- Double shielding for good reduction of electromagnetic interference
- Slimline plug is especially ideal for mobile and flat devices or when space is limited
- Optimised kink protection thanks to flexible materials prevents cable breakage

USB 2.0, 480 Mbit "Flexi Slim"

hama

USB Adapter "Flexi-Slim, USB-C-Plug - USB-A-Plug, OTG, USB 2.0"

Productline	Essential Line
Quality	Essential
Connection	USB Type A female/female, USB-C-Plug
USB Standard	USB 2.0
Max. Data Transfer Rate	480 Mbit/s

- High-speed data transfer of up to 480 Mbps
- Light and space-saving due to the ultra thin, flexible cable and the extra small plugs
- Gold-plated plug with low contact resistance for secure signal transmission
- Slimline plug is especially ideal for mobile and flat devices or when space is limited
- Flexible materials guarantee optimum kink protection and prevent cable breakage
- High-quality materials and workmanship guarantee excellent transmission quality
- Twisted data pairs with outer jacket made from robust PVC material minimise interference
- Copper internal wires for rapid data transfer and excellent power supply
- Supports USB-OTB (USB On The Go)

Computers

Network

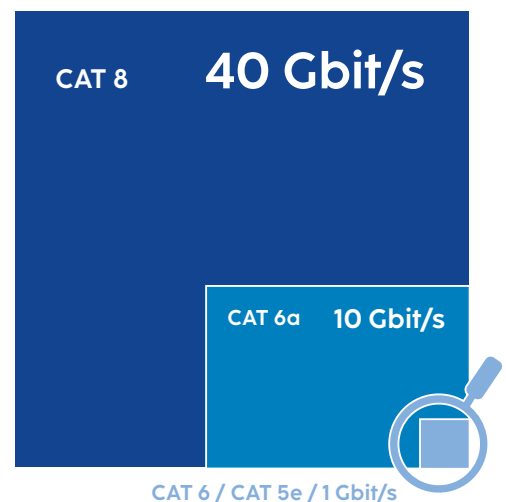

Network.

Whenever a signal comes from outside, it must first travel through an antenna or network cable to its intended receiver. Depending on the application, different requirements apply, which Future in Connection covers with a variety of cables.

Network cables Here, the transfer rate counts

	Frequency	Transfer rate
CAT 8/G	2,000 MHz	40 Gbit/s
CAT 6A/EA	500 MHz	10 Gbit/s
CAT 6	250 MHz	1 Gbit/s
CAT 5E	100 MHz	1 Gbit/s

Difference between the various network cables

(US) category	(EU) class	Bandwidth	Applications	Data rate according to application
Cat 8	G	2000 MHz	40 GBASE-T, 25 GBASE-T	40 Gbit/s
Cat 6A	EA	500 MHz	10 GBASE-T	10 Gbit/s
Cat 6	E	250 MHz	5 GBASE-T	1 Gbit/s
Cat 5e	D	100 MHz	1000 BASE-T, 2.5 GBASE-T	1 Gbit/s
Cat 5	D	100 MHz	100 BASE-TX	100 Mbit/s

Highlight.

200691 | Network Cable, CAT-8, 40 Gbit/s, S/FTP Shielded, Halogen-free, 0.50 m

- For connecting a PC, notebook, TV set and gaming console with routers, switches, hubs or wall sockets in order to transfer digital Internet, network data and signals
- Gigabit Ethernet data transfer at up to 40 Gbit/s
- Halogen-free cables (LSZH) are flame-retardant and release no corrosive or toxic gases and hardly any smoke in the event of a fire - providing more safety
- Gold-plated plugs with low transfer resistances for reliable signal transmission
- Double shielding for good reduction of electromagnetic interference
- Slimline plug is especially ideal for mobile and flat devices or when space is limited

Connection via fibre-optic cable

Fibre-optic cables are ultra-thin fibres made from quartz glass and can transfer data in the form of light signals at ultra-fast speed over long distances.

A fibre optic cable combines many glass optical fibres and consists of three components:

- **Inner core:** transports data as optical light signals
- **Sheath around fibre-optic core:** prevents the leakage of light
- **Outer sheath made of plastic:** protects the sensitive fibre-optic cable

The advantages

The transfer of signals using light waves offers several advantages compared to existing copper lines:

- No electromagnetic interference
- High-speed data transfers at 100 Mbit/s and more - even over long distances without any loss in quality
- Simultaneous use by multiple people
- 17 times less energy required for data transfer (than a copper network)
- Very thin and easy to lay

Mains Adapter

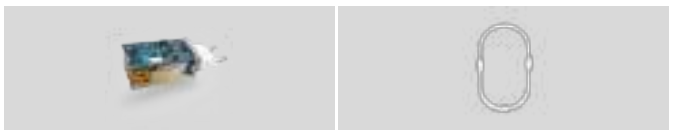

"Slim & Light" Universal Notebook Power Supply Unit, 19V/65W **hama**

Productline	Prime Line
Shade of colour	Black
Output Voltage	19 V

- High-quality workmanship, power and safety
- Mains supply of 100V-240V suitable for worldwide use in conjunction with a country-specific adapter
- Hook and loop cable tie enables good cable management without tangled cables
- USB power socket supplies additional USB devices with power
- LED function indicator gives information about the device status
- Compact size for travelling, ideal for on the go
- A total of 8 notebook connectors for various models from popular manufacturers

65 W	0020000
6	HB

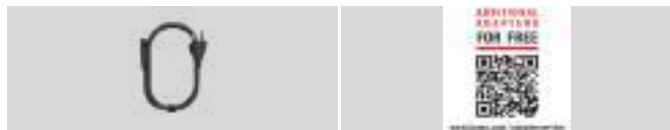

Universal USB-C Notebook Power Supply Unit, GaN, Power Del. (PD), 5-20V/65W **hama**

Productline	Prime Line
Shade of colour	White
Output Voltage	5 V - 20 V

- High-quality workmanship, power and safety
- Powerful GaN technology: super-efficient with low heat development and all in a compact and lightweight design made possible by components made from gallium nitride
- Maximum compatibility: Power Delivery and Qualcomm® Quick Charge™ 3.0 can be used universally, so are suitable for smartphones, AirPods, tablets, power packs and notebooks
- The integrated IC automatically detects connected devices for efficient and optimized charging
- Optimized charging process saves the battery thus extending its service life
- Easy and quick connection thanks to the USB-C plug that can be used on both sides
- Mains supply of 100V-240V suitable for worldwide use in conjunction with a country-specific adapter
- Hook and loop cable tie enables good cable management without tangled cables
- USB power socket supplies additional USB devices with power
- LED function indicator gives information about the device status
- Ideal for all devices that are charged via USB, e.g. notebook, tablet, smartphone, power pack, console
- Also for Apple MacBook, Samsung Galaxy, Nintendo Switch
- Smartphones charge to 60% power in just 30 minutes
- USB Power Delivery is also known as "USB PD"
- Backwards-compatible with all versions of Power Delivery and Qualcomm® Quick Charge™ 3.0 technology
- Compatible with Thunderbolt 3/4 (lightning symbol)
- Intelligent chip set for safe charging with overload and short-circuit protection
- Quick-charging plug for on the go: small and lightweight power supply unit, fits in every bag and hand luggage
- Compact design does not block other sockets

hama

Coaxial Cable for Cable Routers, Network, F-Plug, 75 Ω, 100 dB, 3.00 m

Productline	Essential Line
Type of Shielding	Triple Shielded
Screening Rate	100 dB

- Ethernet data transmission of up to 1000 Mbit/s
- Gold-plated plug with low contact resistance for secure signal transmission
- Triple shielding for very good reduction of electromagnetic interference
- Ferrite core for decimating remaining interference and for good signal transmission
- The inner conductor is made of copper which ensures best transmission properties
- High-quality materials and workmanship guarantee excellent transmission quality
- Suitable for the current EuroDOCIS 3.1/3.0/2.0/1.1/1.0 cable connection transmission standard
- Recommended for the new high-speed Internet
- Can also be used as a satellite cable for receivers / TVs
- 75 Ohm impedance

Audio / Video / Aerial

TV video

Glossary.

What does UHD mean?

UHD stands for Ultra-High-Definition and is a collective term for 4K and 8K resolutions. The term is used in the TV industry to indicate when a device has a higher resolution than Full HD. A distinction is made between UHD-1 (4K resolution) and UHD-2 (8K resolution).

HDMI 8K and 4K differences

8K is the successor to 4K and has a resolution of 7680 x 4320 pixels. 8K therefore has 4 times more pixels than 4K with 3,840 x 2,160 pixels. The transfer of 8K data is very complex, so that only HDMI version 2.1 offers sufficient bandwidth (up to 48 Gbit/s) and enables transmission in 8K at a refresh rate of 60 Hz.

Connector types for HDMI cables

There are five different types of HDMI connector: A, B, C, D and E. Plug type A is almost always required, especially for home entertainment equipment. The other connector types are used for notebooks, tablets or in the automotive industry. There are also cables with straight plugs (180°) and with angled plugs:

- 90° (cable outlet downwards)
- 270° (cable outlet upwards)

A

Standard

C

Mini

D

Micro

8K in everyday life

8K-capable devices are still very costly at the moment. Media content is also rather rare at the moment. However, the Xbox Series X and the PlayStation 5 are already compatible with 8K and support 8K streaming.

HDMI cable with optical signal transmission

Optical fibre cables, often referred to as "glass fibre cables", allow very long distances of up to 100 metres to be bridged by means of optical-digital signal transmission.

Aerial cable shielding dimensions

Good shielding against interfering signals is important so that the mobile phone, for example, does not cause the picture to flicker. The shielding has a significant influence on the transmission behaviour. As a rule, the shielding is only specified by the manufacturer in the form of a number (dB). The higher the dB value, the better the aerial cable is shielded and the higher the quality. Multiple shielding is necessary especially for longer cable lengths.

HDMI cable shielding

The shielding of an HDMI cable is highly relevant. Poorly shielded HDMI cables can cause the signal to be affected by external sources of interference (e.g. power line). In the worst case, this results in a total loss of the image or visible artefacts on the screen in the form of white pixels.

Console gaming at the highest level.

Razor-sharp images, crystal-clear sound and a lightning-fast network connection - you need maximum performance to maximise the gaming experience on your console. All the better if a cable can fulfil all these high requirements. Modern HDMI™ cables are the solution for anyone who loves good console gaming:

→ **Cinema-quality image enjoyment**

8K@60 Hz or 4K@120 Hz ensures lag-free gaming pleasure in ultra HD. 120 Hz means the transmission of 120 frames per second, which ensures faster response times and a sharper picture when moving. This is not only more pleasing to the eye but also conducive to fast, top-level gaming - from Fifa to God of War. The active optical technology transmits the data via light waves and enables loss-free 8K data transfer over longer distances. Thanks to Dynamic HDR, every image is optimally displayed.

→ **Crystal-clear sound**

Thanks to eARC technology, all audio formats such as Dolby TrueHD, DTS-HD Master Audio and even object-based formats such as Dolby Atmos and DTS:X flow between the screen and the output

device without compression. It provides for up to 32 audio channels, including uncompressed 24-bit/192kHz data streams at up to 38 Mbp/s.

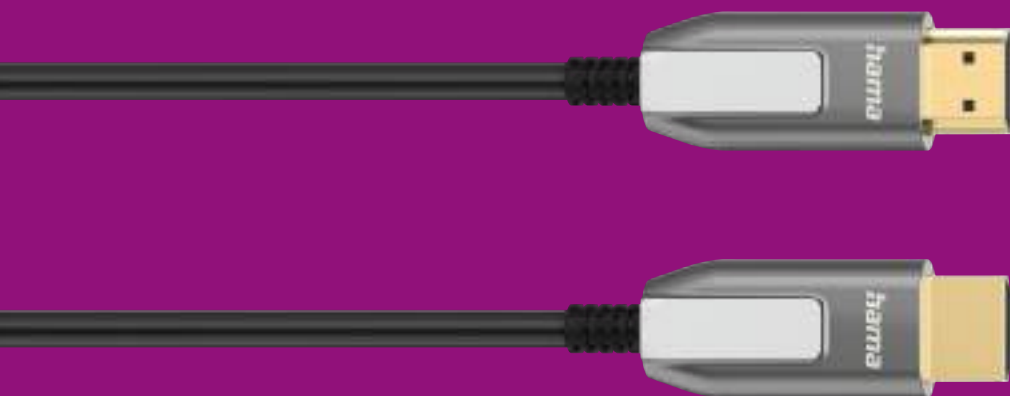

→ **Fully networked**

Devices connected via the HDMI™ cable are connected together in a network - so there is no need to connect each individual device to the Internet. The channel makes this possible by transmitting network data at up to 100 Mbit/s.

→ **Lightning-fast data transfers**

The high-speed data transfer achieves a peak value of up to 48 Gbit/s and guarantees an optimum data flow for unrestricted gaming enjoyment.

205265 |
Optical UHS HDMI cable

HDMI™ in perfection – certified quality from Hama.

Ultra-high-speed HDMI™ cables from Hama meet all specified parameters 100%:

- Certified performance
- Tested quality
- Ingenious features
- Attractive design

The certificate

The Ultra High Speed certification ensures that all features of HDMI 2.1 are supported, such as uncompressed 8K@60Hz, 4K@120Hz, a data transfer rate of up to 48 Gbit/s, eARC or dynamic HDR. High-contrast and colour-intensive image transmission is guaranteed. This certification, comprising a QR code and hologram, must be visible on the packaging. This certification can even be scanned and a certified cable verified with the help of the HDMI Cable Certification app.

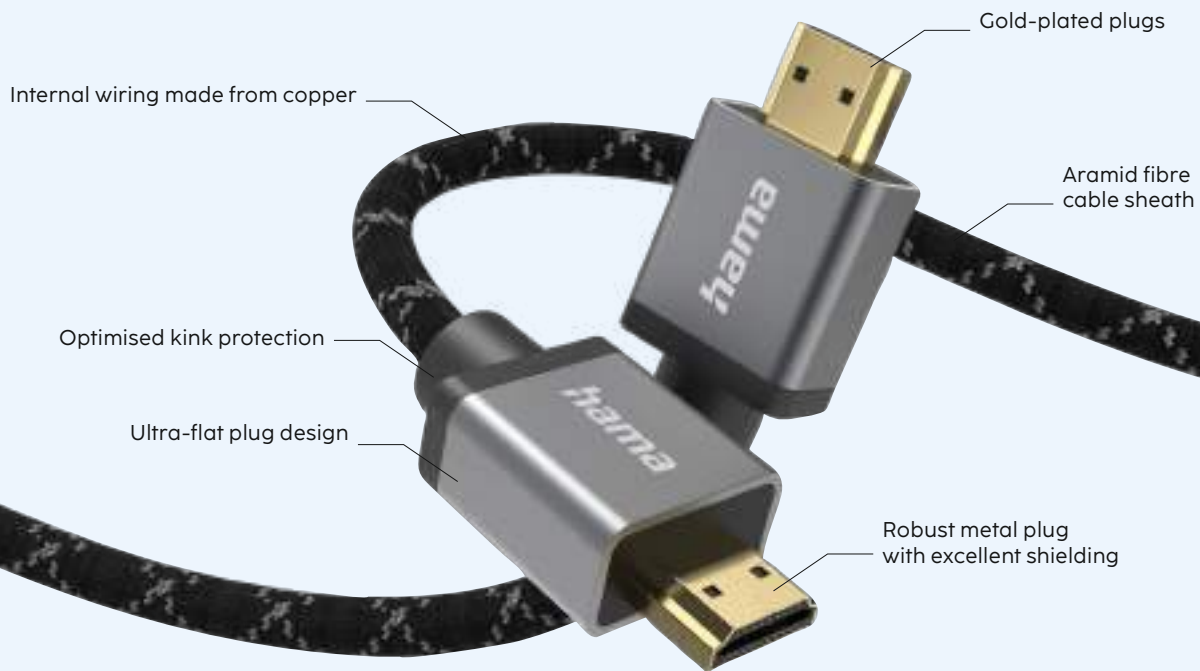

The inspection process

Hama quality assurance checks the cables regularly with a special inspection device. The cables also have to be submitted to an independent test centre certified by the HDMI Forum. Features tested there include the electromagnetic interference (EMI), in order to reduce the interference of, for example, WLAN Networks, Bluetooth devices or mobile phones.

The cables

The concept

The certified Ultra High Speed HDMI™ cables are part of the comprehensive Future in Connection cable concept and round off the range of HDMI™ cables.

Version	High Speed with Ethernet

- HDMI™ cable for perfect, high-resolution ultra HD cinema quality 4096x2160 (4K) pixels
- HDR optimises the display of contrast, colour depth, brightness and sharpness for vibrant pictures
- Return of the audio signal without an additional audio cable (ODT, RCA, etc.)
- Supports network connections via HDMI™ for reduced cabling
- Flexible materials guarantee optimum kink protection and prevent cable breakage
- High-quality materials and shielded lines for excellent picture and sound quality without interference
- Slimline construction is especially suitable for mobile devices such as smartphones, tablets and notebooks
- Gold-plated plug with low contact resistance for secure signal transmission
- Light and space-saving due to the ultra thin, flexible flat ribbon cable and the extra small plugs

High-speed HDMI™ cable, plug - plug, 90°, Ethernet, gold-plated, 1.5 m

Productline	Essential Line
Shade of colour	Black
Data Transfer Rate	18 Gbit/s
Max. Resolution	4k (4096 x 2160)
Version	High Speed with Ethernet

- For perfect, high-resolution ultra-HD cinema quality with 4096x2160 (4K) pixels
- 3D transmission due to extended bandwidth
- High-quality materials and shielded lines for excellent picture and sound quality without interference
- Space-saving 90° plug for connections in a minimum of space
- Flexible materials guarantee optimum kink protection and prevent cable breakage
- Gold-plated plug with low contact resistance for secure signal transmission
- Integrated channel for transmitting network data with up to 100 Mbit/s
- Return of the audio signal without an additional audio cable (ODT, RCA, etc.)
- 3D transmission via extended bandwidth
- High speed transmission of up to 18 Gbit/s for all image and sound standards from a bandwidth of 600 MHz
- Image resolution: 3840 x 2160 - up to 60 Hz, 4096 x 2160 - 24 Hz
- Colour space: 30/36/48 bit
- Transfer of 8PCM, Dolby Digital, DTS, MPEG, DVD audio, SACD, Dolby Digital Plus, True HD and dts-HD audio data
- Transmission of the type of player via ACE (Automatic Content Enhancement)

Antenna Cable 120 dB

hama

Antenna Cable
"F Plug - F Plug, Metal, Gold-Plated, 120 dB", Grey, Black

Productline	Prime Line
Type of Shielding	Quad Shielded
Screening Rate	120 dB

- High-tech cable sheath reinforced with aramid fibres: especially sturdy, heat-resistant and long-lasting
- 120 decibel screening rate (two layers each of high-density braiding + shielding foil) for protection from electromagnetic interference
- High-quality materials and shielded lines for excellent picture and sound quality without interference
- Quad-shielding for optimum reduction of electromagnetic interference
- Coaxial cable structure reproduces clear treble and rich bass
- Robust metal plug with the best shielding for reliable signal transmission
- Gold-plated plug with low contact resistance for secure signal transmission
- Easy to lay thanks to the elastic, environment-friendly TPE material
- Flexible materials guarantee optimum kink protection and prevent cable breakage
- Elegant and flexible fabric jacket for additional kink protection
- For devices with F-connection

Antenna Cable 100 dB

hama

Antenna Cable
"F Plug - F Plug, gold-plated, 100 dB", White

Productline	Essential Line
Type of Shielding	Triple Shielded
Screening Rate	100 dB

- Flexible materials guarantee optimum kink protection and prevent cable breakage
- Triple shielding for very good reduction of electromagnetic interference
- High-quality materials and shielded lines for excellent picture and sound quality without interference
- Ferrite core for decimating remaining interference and for good signal transmission
- Gold-plated plug with low contact resistance for secure signal transmission
- 100-decibel screening rate (extremely dense braiding + double-layer shielding foil) for protection from electromagnetic interference
- For devices with F-connection

		6	HB		

hama

Antenna Socket, Coax Angle, screw-on

Productline	Essential Line
Shade of colour	Silver
Quality	Essential
Attachment of Inner Conductor	Screwable
Max. Cable Diameter	6.0 mm

- Antenna plug for corner connections prevents kinked cables
- Antenna coupling kinked by 90°
- Screw-connectable internal wire

					00205217
		8	HB		

hama

Antenna Plug, Coax Angle, screw-on

Productline	Essential Line
Shade of colour	White
Connection	Coax Plug, Open
Attachment of Inner Conductor	Screwable
Max. Cable Diameter	6.0 mm

- Prevents kinks in the antenna cable
- Antenna plug kinked by 90°
- Screw-connectable internal wire

					00205216
		8	HB		

Antenna Socket

hama

Antenna Terminal Socket, 75 Ohm, Surface-mounted

Productline	Essential Line
Connection for	TV + Radio
Frequency Range	47 - 862 MHz
Model	Terminal Socket

- Return path compatible connection for interactive applications such as DSL via satellite
- Broadband signal sharing to TV and radio connection
- Ideal for home systems
- Suitable for cable TV
- Screening rates: 47 - 470 MHz \geq 75 dB, 470 - 862 MHz M \geq 65 dB

			00205229
	6	HB	

Antenna Splitter

hama

Antenna Splitter, Coax Connector - 2 Coax Plugs, Metal

Productline	Essential Line
Shade of colour	Silver
Input	Coaxial
Output	2x Coaxial
Frequency Range	4 - 1000 MHz
Transmission Loss	Approx. 3.5 dB
Isolation	Approx. 22 dB

- Suitable for cable TV
- Solid-metal housing
- Fully shielded

			00205236
	8	HB	

hama

Antenna Splitter, Coax Plug - 2 Coax Sockets, Metal

Productline	Essential Line
Shade of colour	Silver
Input	Coaxial
Output	2x F Socket
Frequency Range	4 - 1000 MHz
Transmission Loss	Approx. 3.5 dB
Isolation	Approx. 22 dB

- Suitable for cable TV
- Solid-metal housing
- Fully shielded

			00205237
	180	HB	

hama

Broadband Cable Splitter, 3-Way, Fully Shielded

Productline	Essential Line
Shade of colour	Silver
Input	F Socket
Output	3x F Socket
Frequency Range	5 - 862 MHz
Transmission Loss	4 dB +/- 1dB
Isolation	\geq 20 dB

- Solid full metal housing for protection against outside interference
- Fully shielded lines for optimal reduction of electromagnetic interference

			00205350
	8	HB	

hama

Broadband Cable Splitter, 2 Way, Fully Shielded

Productline	Essential Line
Shade of colour	Silver
Input	F Socket
Output	2x F Socket
Frequency Range	5 - 862 MHz
Transmission Loss	4 dB +/- 1dB
Isolation	\geq 20 dB

- Solid full metal housing for protection against outside interference
- Fully shielded lines for optimal reduction of electromagnetic interference

			00205230
	180	HB	

Wall-mounted frame

hama

Surface-mounted Frame for SAT/Antenna Socket

Productline	Essential Line
Shade of colour	Pure White
Material	Plastic Material
Usage	for SAT/Antennendose

- For single-part coverage

			00205360
	6	HB	

SAT DiSEqC Switch

hama

SAT-DiSEqC Switch 2-1

Productline	Essential Line
Number of Inputs	2
Number of Outputs	1
DiSEqC-Level	2.0
Frequencyline	950 - 2500 MHz
Material	Plastic Material

- Weatherproof due to plastic housing
- Solid full metal housing for protection against outside interference
- Fully shielded lines for optimal reduction of electromagnetic interference
- Compliant with DiSEqC Level 2.0
- DC and 22 kHz transmission

		00205289
6	HB	

hama

SAT-DiSEqC Switch 4-1

Productline	Essential Line
Number of Inputs	4
Number of Outputs	1
DiSEqC-Level	2.0
Frequencyline	950 - 2500 MHz
Material	Plastic Material

- Weatherproof due to plastic housing
- Solid full metal housing for protection against outside interference
- Fully shielded lines for optimal reduction of electromagnetic interference
- Compliant with DiSEqC Level 2.0
- DC and 22 kHz transmission

		00205290
6	HB	

Satellite Socket

hama

Antenna / SAT / BB Socket, Twin End Socket, pure white

Productline	Essential Line
Shade of colour	Pure White
Connection Loss	3 dB
Frequency Range	88 MHz - 2400 MHz

- Return path compatible connection for interactive applications such as DSL via satellite
- 4 connections: TV, radio and 2 x SAT
- Frequency range: 5-65 MHz (with feedback channel via TV connection) and 88-2400 MHz
- SAT connection loss: 3 dB +/- 1 dB
- TV connection loss: 3 dB +/- 1 dB
- FM connection loss: 3 dB +/- 1 dB
- For BB/SAT networks
- Ideal for HDTV
- DC supply via F sockets
- Can be used with and without frame
- Suitable for covers compliant with German standards, e.g. for Bush + Jäger

		00205354
6	HB	

SAT Setting Device

hama

Satellite Receiver Finder with LED Display

Productline	Essential Line
Material	Metal

- Attenuator for optimal adjustment of the input signal
- Acoustic signal for signal strength and quality
- 7-stage LED for SAT levels
- Function LED for 22 kHz impulse
- 2 x F connection (coupling)
- Simply plug between the LNB and receiver and adjust until the maximum achievable signal quality is achieved

		00205359
6	HB	

hama

SAT Finder with Analogue Display

Productline	Essential Line
-------------	----------------

- Attenuator for optimal adjustment of the input signal
- Acoustic signal for signal strength and quality
- 2 x F connection (coupling)
- Connecting cable with Quick-F plug for easy attachment
- Digital and HD compatible

Inline Amplifier

hama

SAT Inline Amplifier, 20 dB

Productline	Essential Line
Amplification	20 dB
Frequency Range	950 - 2400 MHz

- Fully shielded lines for optimal reduction of electromagnetic interference
- Signal amplification by 20 decibels
- Solid full metal housing for protection against outside interference
- Ideal for HDTV

		00205233
8	HB	

SAT Splitter

hama

AB/SAT Priority Switch

Productline	Essential Line
Input	F Socket
Isolation (min.)	20 dB
Output	F Socket
Impedance	75 Ω
Material	Metal

- Solid full metal housing for protection against outside interference

00205232

Universal Receiving Outlet

hama

"SKITU" Universal Antenna Socket, 0 dB Terminal Socket, 4 in 1

Productline	Essential Line
Shade of colour	Pure White
Connection for	TV + SAT + Radio + Telephone + Unicable
Frequency Range	5 Mhz - 2200 Mhz
Model	With Cover and Frame
Usage	Terminal Socket

- Simultaneous use of SAT, cable TV, internet and telephone possible
- Return path compatible connection for interactive applications such as DSL via satellite
- TV, telephone and Internet (Triple) through a single line
- Unicable compatible for use in single cable systems according to EN 50494
- Capable of receiving DVB-S/-C/-T
- Multimedia-compatible with 5 to 65 MHz feedback channel (Internet/telephone)
- The Internet signal is received at the TV socket
- Diode-decoupled SAT connection
- Extended F-socket (installation-friendly)
- Suitable for covers compliant with German standards, e.g. for Bush + Jäger
- Ideal for HDTV

Technical data:
 • Frequency range: 5 to 2,200 MHz
 With SAT connection: 950 to 2,200 MHz
 Connection loss: <2dB

- For TV connections: 109 to 865 MHz;
- Return channel: 5 to 65 MHz

SAT Receiver Connection Set

hama

SAT Connection Kit, 85 dB, 20 m

Set Contents in Pieces	7
------------------------	---

- Double shielding for good reduction of electromagnetic interference
- Shielded lines for optimum picture and sound quality without interference
- 85-decibel screening rate (braiding + shielding foil) for protection from electromagnetic interference
- Impedance: 75 ohms
- Outside diameter: 5.8 mm
- Suitable for digital operation
- 7-part kit comprising:
 - 1 double shielded coax cable (20 m, white)
 - 4 F plugs
 - 2 weather protection sleeves

00056607	
12	SC

Stripping Tool

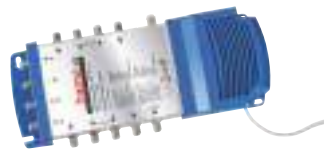

hama

Cable insulator

- For cables with an external diameter up to max. 8.00 mm
- For cables with an internal wire up to a max. diameter of 1.13 mm
- Can be used for external and internal jackets
- Easy to use

SAT Multiswitch

hama

"Lypsi SE" SAT Multiswitch, 5/8 NT

Number of Inputs	5
Number of Outputs	8
frequency spectrum terrestrial/SAT	5 - 862 MHz, 47 - 862 MHz, 950 - 2200 MHz
Transmission Loss	6 - 10 dB
Isolation SAT Outputs (min.)	35 dB
Line Voltage	90 - 250 V
Max. Remote Supply Current	500 mA

- Return path compatible connection for interactive applications via the terrestrial input
- Connection to quadswitch LNB possible
- Decoupling that is especially high for decreased sensitivity to interference from the signal inputs
- With colour coding for easily assigning the cables when connecting the LNB to the multiswitch
- Quad and Quadswitch compatible (22 KHz signal supplied to the LNB)
- With switching power supply for LNB power supply
- Inputs: 4x SAT, 1x terrestrial
- Earth connection: 1x terminal screw
- V/H: 14 V/18 V and 22 KHz switching signal

hama

Sealing Tape

hama

Self-sealing sealing tape,
5.0 m

Material	Caoutchouc
Width x Length	19 x 5000 mm
Thickness	1 mm

- Rubber insulating tape, permanently elastic
- Permanently self-sealing, water-tight
- Highly flexible, can also be used below 0°C
- Complies with VDE Directive 0530 Type A4

Black					00205356

LNB

hama

Universal Single LNB

Amplification (typically)	60 dB
Gain (typical) min. x Gain (typical) max.	55 x 67 dB
Input Frequency Range	10,7 GHz - 12,75 GHz
Noise Factor (typically)	0.3 dB
Oscillator Frequency	9.75 GHz (L1), 10,6 GHz (L2)
Output Frequency Range	950-2150 MHz
Power Consumption (typical)	90 mA
Switch vertical/horizontal	14V, 18V
Feed Horn Diameter	40 mm

- Particularly low-noise: the high-quality components used ensure a very low noise factor of max. 0.3 dB
- Insulating cap against wind and weather: the high-quality weatherproof rubber grommet protects the connections and ensures consistently good transmission quality
- Easy to connect: the single LNB enables a simple connection for a digital receiver
- For digital reception of SAT programmes such as Astra, Eutelsat or Türksat
- For connecting to a digital receiver or a TV with built-in digital receiver
- Ideal for HD, HD+ FullHD, UltraHD UHD 4K and 8K
- 22 kHz switching between low and high band
- Weather-proof thanks to weather protection grommet

White					00205374
		10	HB		

hama

Universal Single LNB

Noise Factor (typically)	0.3 dB
--------------------------	--------

Bluetooth Audio Adapter

hama

"Link.it duo" Bluetooth® Adapter, Transmitter & Receiver, Bluetooth Retrofit

Shade of colour	Black
Connection	3.5 mm Jack Socket, USB-C-Connector
Max. Range	10 m
Bluetooth Version	5.2

- Many connections lead to Bluetooth: TVs, Hi-Fi systems or projectors can be connected via the 3.5-mm jack connection or via the optical fibre connection without interruption thanks to the Bluetooth adapter
- Transceiver for Bluetooth in both directions: whether it be a Bluetooth transmitter or receiver, two devices can always be connected, e.g. two pairs of headphones with one TV or one pair of headphones with the TV and stereo system
- Handy power supply via USB: Bluetooth adapter draws power directly via the USB-A - USB-C cable through the USB port on the device, e.g. TV set
- Bluetooth in no time: thanks to auto pairing, the Bluetooth transmitter and receiver are quickly ready for use - You simply have to pair the devices once and after this the connection will be established automatically when Bluetooth is activated
- APTX technology for better audio quality despite the limited bandwidth with Bluetooth
- Pair the Bluetooth headphones or Bluetooth speaker with the TV, projector or stereo system without a previous Bluetooth function
- Multi-point - 2 Bluetooth headphones on one audio source (e.g. TV): ideal for people who listen to sound at different volumes but still like to enjoy their favourite series together

00205322	
6	HB

hama

"Link.it solo" Bluetooth® Adapter, Receiver, Retrofit Bluetooth to the HiFi

Shade of colour	Black
Connection	USB-C-Connector
Max. Range	50 m
Bluetooth Version	5.3

- Bluetooth connectivity via a jack: the loudspeaker and HiFi system can be easily and universally connected to the Bluetooth adapter using the 3.5 mm jack connection
- For two audio sources: the Bluetooth receiver allows two devices to be connected, e.g. two mobile phones with one loudspeaker or one stereo system - entirely without having to reconnect and retrofit Bluetooth
- Your favourite sounds from the microSD card: enjoy your play list from a microSD card on the HiFi system without any need for a card reader, etc.
- Handy power supply via USB: the Bluetooth adapter draws power directly via the USB-A to USB-C cable through the USB port on a power strip
- Bluetooth in no time: thanks to auto pairing, the Bluetooth receiver is quickly ready for use - You simply have to pair the devices once and after this the connection will be established automatically when Bluetooth is activated
- You do not need to observe any system requirements, simply plug in and go
- Up to 50-metre range (with clear sight)
- The Bluetooth receiver can also be powered via a separate USB power supply unit through a power socket
- Supports micro-SD cards with up to 64 GB storage and FAT32 or exFAT formatting

Signal Converter

hama

"AC80" Audio Converter, Digital to Analogue

Shade of colour	Black
Voltage of Plug-In Power Supply	5 V
Width x Depth x Height	5 x 4 x 2.5 cm

- Allows retrofitting an analogue audio output for connecting a hifi system, amplifier or a pair of headphones
- Improves the sound quality of digital output devices (e.g. flat TV, DVD player) by sound playback via a hifi system
- Two digital inputs (optical, coaxial) for DVD players, games consoles and computers
- One analogue output (line out) for hi-fi systems, audio amplifiers
- Can be operated with the supplied power supply unit
- Plug & play, no software required

00083180		
6	HB	

hama

"AC90" Audio Converter, Digital to Analogue

Voltage of Plug-In Power Supply	5 V
Width x Depth x Height	4.91 x 5,738 x 1,68 cm

- Allows retrofitting an analogue audio output for connecting a hifi system, amplifier or a pair of headphones
- Improves the sound quality of digital output devices (e.g. flat TV, DVD player) by sound playback via a hifi system
- The solution for connecting newer devices with digital connections such as flat-screen TVs, Blu-Ray players, DVD players, games consoles or PCs to an older hi-fi system with analogue connections
- Two digital inputs (optical, coaxial) for e.g. DVD players, games consoles and computers
- One analogue output (line out) for hi-fi systems, audio amplifiers
- Plug & play, no software required
- Power supply via USB on the flat-screen TV etc. or via a USB power supply unit

Antenna Cable

hama

Antenna Cable „Coax Plug - Coax Socket, metal, gold-plated, 120 dB“, Black

Productline	Prime Line
Type of Shielding	Quad Shielded
Screening Rate	120 dB

- 120 decibel screening rate (two layers each of high-density braiding + shielding foil) for protection from electromagnetic interference
- High-quality materials and shielded lines for excellent picture and sound quality without interference
- Quad-shielding for optimum reduction of electromagnetic interference
- Coaxial cable structure reproduces clear treble and rich bass
- Robust metal plug with the best shielding for reliable signal transmission
- Gold-plated plug with low contact resistance for secure signal transmission
- Ferrite core for decimating remaining interference and for good signal transmission
- Easy to lay thanks to the elastic, environment-friendly TPE material
- Flexible materials guarantee optimum kink protection and prevent cable breakage
- Elegant and flexible fabric jacket for additional kink protection
- For devices with a 9.5 mm coax connection
